Subject: RM 10.9 notice
20130325 RM 10.9 Monitoring Event Fact Sheet to EPA.PDF

Hello David hope all is well with you. Attached is a notice related to some ground water movement monitoring that is planned for RM 10.9 in the coming weeks. This would be provided to the Township, County, Boat Clubs and other River users and adjacent landowners as well as the CAG. Please review and also let us know your thoughts about distribution. Thanks.

I know we still owe you a suggested communications plan based on our recent meeting and I expect to have that to you next week. Talk to you soon.

Ray
